CONSTANTINOPLE(1 April, 1908) A dastardly Austrian plot has been hatched. Turkish sources claimed today. In what was described as a "Glorious Victory" Turkish Naval forces sunk or disabled several more garbage scows containing provisions for the Austrian aggressors along with an Austrian drilling rig bent on mischief. The Austrian apparently intended to let all the water out of the Black sea through a hole drilled through the bottom.

CONSTANTINOPLE(31 April, 1908); The smell of dead Austrians is causing a serious air-Pollution problem in this city. Unable to survive without their normal diet of garbage the invaders are dying rapidly.

The English Fleet in the Channell must retreat to either London or Wales.

BERLIN.-The high command in Germany has fired all of its Intelligence Agents today. The reason given--that they did not lend or supply aid and help as to who was allied with whom. The High Command would be very happy if somebody would shed some light on this matter. (It is terrible to be left in the dark) There have been reports that the Austrian Government has sent two divisions of armed troops up to the German border. These armies are being watched and will not be molested if the Commander of the Austrian forces would clarify his intentions. In other words, GET THE HELL OUT OF THERE.

PARIS (April 8, 1903); After a top secret meeting of the French Military command here, President Hobaire le Formidable announced the basic French ambitions for this decade. He pledged that the French and the English dogs will continue to try and save the peoples of Africa from this century. No mentioned assistance from other Nations would be forthcoming but these powers were not named. The latest attack by French gunboats in the English Channell to support the League of Mini-States opened on the Cliffs of Dover and the Channel Islands. It is believed that the English forces were attacked were obliterated and forced into wild retreat. In the final words of his speech, he declared "les français nous obliterons les anglais qui sont là plus horribles peuples de siècle".

SAN FRANCISCO (April 9, 1903); In response to the inspiring speech by the French President, the league of Mini-States has unanimously voted to Continue action against the Aggressor-Pig-English, after the regrettable loss of Captain Peery in the Battle of Dover, a new commander of Mini-State forces was named today. The great Admiral Anto Ludwig Anto Kalf Josef Wolfgang Freisner Von Metzkedorffer is now on his way from Gaul to the anchorage of the fleet.

While all three Seattle based magazines will be coming out now and in
the future under a new heading they will maintain their own identity, I am
doing this because it is too much work to keep a separate listing of
who gets what magazine and who doesn't, this way all the players involved
in the above three magazines will receive them all.

CONSTANTINOPLE:-The Government of Turkey was astounded at the ludicrous
communiqué we recently received from the pompous Slav grunting in the
remnants of the Kremlin. We were also astounded by his stupidity for as
one knows Armenia does not have women much less Children. And secondly
no self respecting Turk would get near Armenia. So Czar Black, how
could we or would want to, make those miscreted off spring of the
Russian orgies to go on forced marches? Therefore we will gladly give you
Armenia and many of its dens of sickness, and perversions destroy you.
However as to your other statements we doubt that your peons could
march to GUM much less leave the borders of Mother Russia. Put that in
your Boreht and eat it you misformed Latvian. How you like them
Pompeyans.
